Buffalo still maintains her position as a great grain mart; and notwithstanding the diversion of trade from the Erie Canal by competing routes of water and railway transportation, the receipts here are steadily on the increase. The aggregate of grain received annually, exceeds that of any port in the world, so far as any figures yet published indicate. The increase in the past six years has been over 100 per cent. Whole amount of flour sold last season, about 450,000 bbls; of wheat, about 6,000,000 bu.; of corn, 7,189,000 bu., and of all other grain, 1,647,000 bu. Number of cattle received, 105,000; live hogs, 329,000, and of sheep, 119,000. About 25,000 of the cattle, and one-half of the live hogs changed hands in this market. Vessel tonnage, owned in this district, 75,000, besides which 103 canal boats are enrolled here. Total number of vessels which arrived at and cleared from this port last season 8,128, the total tons of which were 3,018,589. Total tons of the new vessels built here in 1856, 20,059; 2 steamers, 18 propellers, and 27 schooners; value \$1,139,500. Tons of property sent hence by canal, 662,238; of property arrived by canal, 375,904; tolls collected \$783,905. Probable value of articles manufactured, \$11,000,000 to \$12,000,000. Total value of the property which came to the city in 1856, by lake, canal and railroads, \$180,882,971.

A. & J. KEOGH

Piano Forte Manufacturers,

257, 259 and 261 WASHINGTON STREET,

Between North and South Division Sts.

The subscribers keep constantly on hand an extensive and choice assortment of Piano Fortes, in elegant Rosewood Cases, which we warrant to be equal in tone, touch and finish, to any manufactured in this country. As a proof of the superiority of our instruments the subscribers would respectfully call the attention of the public to the subjoined testimonial from Professor Gottschalk, (one of the most distinguished pianists in this country,) being one of the many they are daily receiving from professors, and others, assuring them of the merits of their Pianos. Persons desirous of obtaining a superior instrument are earnestly invited to give us a call.

Dealers supplied on liberal terms.

A. & J. KEOGH.

TESTIMONIAL.

SARATOGA, 27th July, 1856.

I was excessively satisfied with the piano which Mr. Richard Owen, of Quebec, was kind enough to lend me for my concert here.

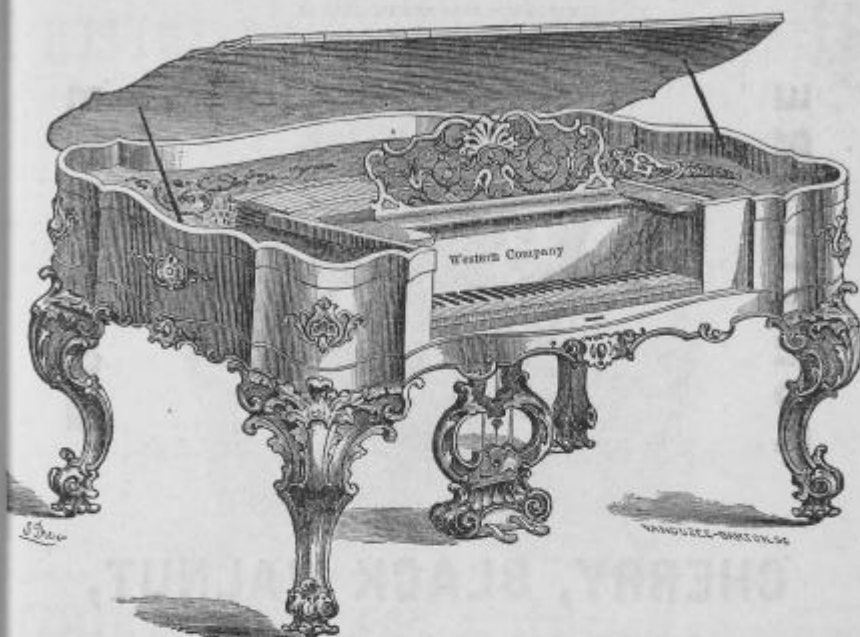

That instrument, of the manufacture of Messrs. A. & J. Keogh, of Buffalo, was one of the most powerful, if not the most powerful, two stringed square Pianos I had ever met with. The tone was full and round, without harshness, and of a remarkable evenness in all its registers. As to its strength, I will merely state the fact, that it stood at my concert during two hours, without intermission, under five or six heavy fantasias, and as many small pieces, in a moist and hot atmosphere, without one single string breaking, or the instrument getting out of tune, which is more than I could say of many grand pianos, even of the most eminent makers.

The Messrs. Keogh are personally unknown to me, and this was the first instrument of theirs I had ever performed on; my opinion, therefore, cannot be influenced by partiality. In recommending it, I simply respond to an artistic feeling, and a desire to do justice to manufacturers whose popularity is so well deserved.

Signed,

L. GOTTSCHALK.

PATENT ARTIFICIAL TEETH

NEW YORK ADVERTISEMENTS

WOOD AND MILLER WARE

BRIDGE, N. Y. 1880

THE LARGEST & BEST OF THE ARTIFICIAL TEETH

PALMER'S PATENT ARTIFICIAL LEGS

Manufactured by PALMER & CO.

378 Broadway, corner of White Street, New York,
AND 19 GREEN STREET, BOSTON, Mass.

The PRIZE MEDAL LEGS at the World's Great Fair at London, 1851; and at the Crystal Palace, New York, 1853; and also at Franklin Institute, Philadelphia; American Institute, New York; Massachusetts Char. Mechanics' Association, Boston; as "the best, most useful, reliable and natural operating and appearing legs ever invented." *Pamphlets sent gratis to all who apply for them, giving the names of invalids wearing these legs, in every kind of business; also the testimonials of Drs. Mott, Parker, Carnochan, and other first surgeons in New York, for reference; and also of all the first surgeons and the reports of the various Institutes in the United States.*

Entire satisfaction is guaranteed. As several persons are counterfeiting the exterior of these legs, to palm off strictly an inferior article, on the credit of Palmer's, every person interested will do well to be on the look out. THE CUT represents Mr. Sanford, of West Medford, Mass., wearing a pair (one with an artificial knee joint,) with which he is actively engaged in business and walks any grade with the aid of one cane only, and also represents the manner of applying these legs in single amputations above the knee and below. *Report of Amer. Institute, Oct. 1856: "Palmer's Patent Leg, the best Gold Medal, certified, and Diploma." New York Medical Gazette, Nov. 1856: "Palmer's Patent Leg still bears the palm, defying all competition."*
